

PRODIGY

NEXT GENERATION INSULATED SIDING

When you are building or remodeling your home, there are many decisions to make. Thanks to new technologies that blend intelligent design with exceptionally beautiful features, your ideal choice of siding is an easy one. Prodigy insulated siding achieves a superb appearance and enduring performance.

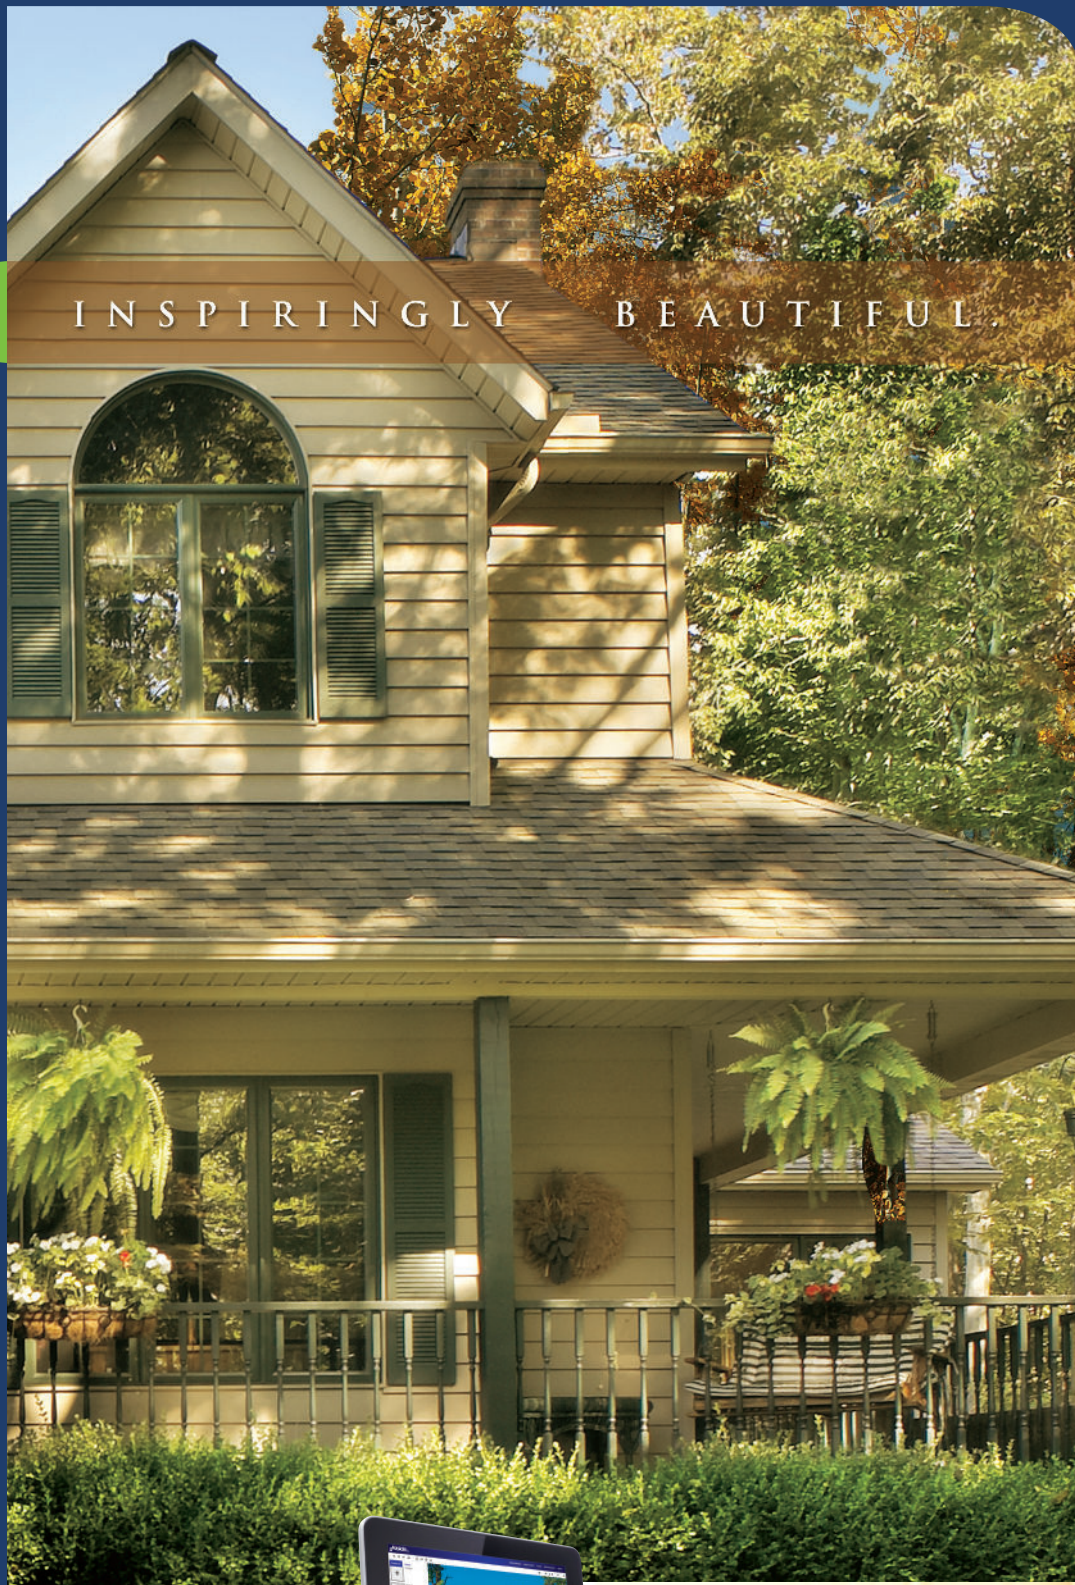

Prodigy. Inspiringly beautiful.
Amazingly energy-efficient.†

Imagine that you could keep every corner of your home at the perfect temperature year-round. And yet conserve energy consumption. That's the *Prodigy ComfortFactor*.

Prodigy delivers outstanding performance and energy efficiency, thanks to the exceptional R-value of its industry-leading thermal barrier – up to 1½" thick insulation.* Prodigy creates a powerful blanket of insulation around your home, and with a Perm Rating of 5, also breathes freely to allow moisture vapor to escape. The result is a comfortable interior climate year-round.

INSPIRINGLY BEAUTIFUL.

SEE AND FEEL THE DIFFERENCE.

ENERGY EFFICIENCY†

ProdigyComfortFactor

A Comfortable Home Year-Round.

Prodigy delivers outstanding all-weather protection and can reduce your energy use, thanks to the exceptional R-value of its industry-leading thermal barrier – up to 1½" thick insulation,* the thickest EPS foam available in a one-piece insulated siding system.

ThermoSphere™

Energy Gap Protection.

With innovative features like RigidLock and TrueForm™ combined with a full line of insulated trim and accessories, Prodigy creates a blanket of insulation around your home.

ENGINEERED PERFORMANCE

TrueForm™

One-Piece Insulated Siding System.

Precision-contoured insulation – up to 1½" thick* – bonds securely to the siding panel, creating an integrated system that delivers strength and energy efficiency.

RigidLock

Secure Interlocking Panel Design.

Prodigy's innovative interlocking panel design provides a tight, secure connection between stacked panels. This ensures your siding will be securely locked in, have straight and even course lines, and look great for a lifetime.

MonoWallIntegrity™

Structurally Independent Wall System.

Structural integrity and rigidly interlocking panels mean Prodigy stands tall on its own. The siding that stands on its own will stand up to almost anything.

INSPIRED BEAUTY

TrueCourse™

The Look of Hand-Installed Boards.

Designed and expertly manufactured to capture the look of traditional plank siding. Available in double 6" clapboard and double 5" dutch lap profiles.

ExtendedLength

More Panel. Less Seams.

39% longer than a standard 12' panel, the 16'8" Extended Length panel design provides fewer installation overlaps for a straighter, cleaner exterior finish.

TrueWoodLook

Crisp, Clean and Subtle.

We drew our inspiration from nature and designed Prodigy with a less-is-more sensibility. The look and feel of Prodigy is an important statement of credibility and taste. Crisp, clean and subtle, the appearance of finely milled wood is timeless and genuine.

Traditional vinyl siding is no match for the Prodigy insulated siding system. Prodigy provides protection against energy loss and the distortion and fading caused by extreme weather. Prodigy's system bonds an inner core of the thickest, high-density EPS insulation with a durable and beautiful outer layer – creating an integrated system that delivers remarkable strength and performance. **The result:** your installer can achieve a uniform outer layer with a beautiful finish that holds true.
